About Sandra

I am the founder, CEO, and Clinical Director of BASICS ABA Therapy. I am also President of DC ABA. I have over 20 years of experience working in Applied Behavior Analysis and with people with Autism/Autistic people and have been a BCBA for 13 years. I wrote The Trauma Informed Behavior Management Handbook. I am especially passionate about Trauma-Informed Behavior Management and models that focus on self advocacy rather than compliance. I am a Certified Clinical Trauma Professional and am certified to give trainings that qualify for Type-2 CEUs, DCPS CEUs, and CFSA foster parent hours. I was a foster parent for 7 years and have 4 children (3 who are adopted)
